Figure S3

(a) % signal change vs. Probability for two different conditions (100 and 200).

(b) Probability vs. Reward status (Unrewarded vs. Rewarded).

Figure S3
Figure S4

Behavioral elevation (delta)

Response distortion (inverted-S)
Figure S6

(a) % signal change vs. Probability for different signal strengths (100 and 200).

(b) Probability vs. Probability for different reward conditions (Unrewarded and Rewarded).

Figure S6
Figure S7

(a) Graph showing response distortion (S) vs. behavioral elevation (delta).

(b) Box plot showing contrast estimate and probability distortion vs. skewness.
