

## ANNOUNCEMENTS AND NEEDS

### *Coming Events*

The next two meetings sponsored by the Society will be on:

#### *Materials Characterization*

Organizer: S. V. Radcliffe  
Case Western Reserve University

#### *Frontiers in Materials Science*

Organizer: H. C. Gatos  
Massachusetts Institute of Technology

### *Logo Competition*

A competition to select a logo for the Society is hereby announced. Members are invited to submit entries or suggestions to Dr. I. Warshaw (address below).

### *Items for the Newsletter*

Members are invited to submit items or articles for the Newsletter to:

I. Warshaw, Director  
Division of Engineering  
National Science Foundation  
Washington, D.C. 20550  
Telephone: 202/632-5790

# MATERIALS RESEARCH SOCIETY

## INAUGURAL MEETING

May 23, 1973  
7:30 p.m., Conference Center Auditorium  
The Pennsylvania State University  
University Park, Pennsylvania

# MATERIALS RESEARCH SOCIETY

# INAUGURAL MEETING AGENDA

## Founding Committee

Chairman — M. Myers, Sec. Pro Tem

ERIC BAER  
Case Western Reserve  
University

S. V. RADCLIFFE  
Case Western Reserve  
University

HARRY C. GATOS  
Massachusetts Institute  
of Technology

RUSTUM ROY  
The Pennsylvania State  
University

ROBERT A. HUGGINS  
Stanford University

B. SHELDON SPRAGUE  
Celanese Corporation

KENNETH A. JACKSON  
Bell Telephone Laboratories

RICHARD S. STEIN  
University of Massachusetts

ERIC KAY  
IBM Corporation

SANFORD STERNSTEIN  
Rensselaer Polytechnic  
Institute

ROBERT LAUDISE  
Bell Telephone Laboratories

JAMES J. TIETJEN  
RCA Laboratories

MARK B. MYERS  
Xerox Corporation

I. WARSHAW  
National Science Foundation

EARL PARKER  
University of California  
Berkeley

LEONARD R. WEISBERG  
Itek Corporation

## Introductory Remarks

## Discussion of the Function of the Society

## Presentation of the Constitution

## Report of the Nominating Committee

## Remarks by the new President and other Officers

## Business from the floor

## Discussion of Society Plans

### (a) Future topical meetings

(b) How to link up with existing materials groups holding single material conferences, e.g. carbon, cement, glass, etc.

(c) The Society's role in communication to the materials community, e.g. abstracts, journals, news media, etc.

(d) Relationship to Federation of Materials Societies

## Purpose

The Materials Research Society will serve and promote the common interests of those people involved in the preparation, characterization, design and utilization of materials. Particular emphasis is placed on research activities involving the interfaces of many scientific and engineering disciplines. This is a professional society specifically designed to appeal to a community of scientists and engineers trained in a broad spectrum of fields; physics, metallurgy, electrical engineering, ceramics, chemistry, polymer science, engineering mechanics, chemical engineering, etc.
