
ERRATUM

Magnetic Coupling between ^3He and ^{19}F at Low Temperatures. P. C. HAMMEL, M. L. ROUKES, Y. HU, T. J. GRAMILA, T. MAMIYA, and R. C. RICHARDSON [Phys. Rev. Lett. **51**, 2124 (1983)].

The third sentence of the caption to Fig. 1 should read, "The inset shows the longer ^{19}F relaxation times at applied magnetic fields of 50 mT (open circles) and 100 mT (closed circles)."

The fourth sentence of the paragraph beginning at the bottom of page 2126 should read, "Chapelier has also recently reported¹³ a coupling in these particles in experiments down to 30 mK and in a field as large as 3.5 T where the electronic moments should be highly polarized."
