A circuit logic for sexually shared and dimorphic aggressive behaviors in *Drosophila*

Hui Chiu^{*}, Eric D. Hoopfer, Maeve L. Coughlan, Hania J. Pavlou, Stephen F. Goodwin, David J. Anderson^{*}

Due to an oversight that occurred during a turnover of laboratory personnel, Hania J. Pavlou and Stephen F. Goodwin, who provided an essential then-unpublished genetic reagent on a collaborative basis years prior to submission, were inadvertently omitted from the manuscript. The reagent (*dsx*-DBD) is described in the following publication: Pavlou, H.J., Lin, A.C., Neville, M.C., Nojima, T., Diao, F., Chen, B.E., White, B.H., and Goodwin, S.F. (2016). Neural circuitry coordinating male copulation. *eLife* 5, e20713. This oversight has been corrected online. We apologize to H.J.P. and S.F.G. for this omission.
