

Materials Design Analysis Reporting (MDAR) Checklist for Authors

The MDAR framework establishes a minimum set of requirements in transparent reporting applicable to studies in the life sciences (see Statement of Task: [doi:10.31222/osf.io/9sm4x](https://doi.org/10.31222/osf.io/9sm4x)). The MDAR checklist is a tool for authors, editors and others seeking to adopt the MDAR framework for transparent reporting in manuscripts and other outputs. Please refer to the MDAR Elaboration Document for additional context for the MDAR framework.

Materials

Antibodies	Yes (indicate where provided: page no/section/legend)	n/a
For commercial reagents, provide supplier name, catalogue number and RRID, if available.		NA
Cell materials	Yes (indicate where provided: page no/section/legend)	n/a
Cell lines: Provide species information, strain. Provide accession number in repository OR supplier name, catalog number, clone number, OR RRID	Yes (Main Text page #4/ section “Spatially-resolved single cell sequencing of the mouse”)	
Primary cultures: Provide species, strain, sex of origin, genetic modification status.		NA
Experimental animals	Yes (indicate where provided: page no/section/legend)	n/a
Laboratory animals: Provide species, strain, sex, age, genetic modification status. Provide accession number in repository OR supplier name, catalog number, clone number, OR RRID		NA
Animal observed in or captured from the field: Provide species, sex and age where possible		NA
Model organisms: Provide Accession number in repository (where relevant) OR RRID		NA
Plants and microbes	Yes (indicate where provided: page no/section/legend)	n/a
Plants: provide species and strain, unique accession number if available, and source (including location for collected wild specimens)		NA
Microbes: provide species and strain, unique accession number if available, and source		NA
Human research participants	Yes (indicate where provided: page no/section/legend)	n/a
Identify authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.		NA
Provide statement confirming informed consent obtained from study participants.		NA
Report on age and sex for all study participants.		NA

Design

Study protocol	Yes (indicate where provided: page	n/a
For clinical trials, provide the trial registration number OR cite DOI in manuscript.		NA
Laboratory protocol	Yes (indicate where provided: page	n/a
Provide DOI or other citation details if detailed step-by-step protocols are available.	Yes (Supplement page #s 1,3,4 and 5)	
Experimental study design (statistics details)	Yes (indicate where provided: page	n/a
State whether and how the following have been done, or if they were not carried out.		
Sample size determination		NA
Randomisation		NA
Blinding		NA
Inclusion/exclusion criteria		NA
Sample definition and in-laboratory replication	Yes (indicate where provided: page	n/a
State number of times the experiment was replicated in laboratory	Yes (Supplement page #3)	
Define whether data describe technical or biological replicates	Yes (Main Text and Supplement page #3)	
Ethics	Yes (indicate where provided: page	n/a
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.		NA
Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.		NA
Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority approving study; if none were required, explain why.		NA
Dual Use Research of Concern (DURC)	Yes (indicate where provided: page	n/a
If study is subject to dual use research of concern, state the authority granting approval and reference number for the regulatory approval		NA

Analysis

Attrition	Yes (indicate where provided: page no/section/legend)	n/a
State if sample or data point from the analysis is excluded, and whether the criteria for exclusion were determined and specified in advance.	Yes (Supplement page #7)	
Statistics	Yes (indicate where provided: page no/section/legend)	n/a
Describe statistical tests used and justify choice of tests.	Yes (Main Text and Supplement page #7)	
Data Availability	Yes (indicate where provided: page no/section/legend)	n/a
State whether newly created datasets are available, including protocols for access or restriction on access.	Yes (Main Text/ Section – “Acknowledgments”/ page #20)	
If data are publicly available, provide accession number in repository or DOI or URL.	Yes (Main Text/ Section – “Acknowledgments”/ page #20)	
If publicly available data are reused, provide accession number in repository or DOI or URL, where possible.	Yes (Main Text/Section – “References”/ page #s 16,17,18, and 19)	
Code Availability	Yes (indicate where provided: page no/section/legend)	n/a
For all newly generated code and software essential for replicating the main findings of the study:		
State whether the code or software is available.	Yes (Main Text/ Section – “Acknowledgments”/ page #20)	
If code is publicly available, provide accession number in repository, or DOI or URL.	Yes (Main Text/ Section – “Acknowledgments”/ page #20)	

Reporting

Adherence to community standards	Yes (indicate where provided: page no/section/legend)	n/a
MDAR framework recommends adoption of discipline-specific guidelines, established and endorsed through community initiatives. Journals have their own policy about requiring specific guidelines and recommendations to complement MDAR.		
State if relevant guidelines (eg., ICMJE, MIBBI, ARRIVE) have been followed, and whether a checklist (eg., CONSORT, PRISMA, ARRIVE) is provided with the manuscript.		NA
