

CORRIGENDUM

Authors Nilton O. Rennó and Andrew P. Ingersoll have reported a production error that occurred in their article "Natural convection as a heat engine: A theory for CAPE" that appeared on pages 572–585 in the 15 February 1996 *Journal of the Atmospheric Sciences*, Vol. 53, No. 4.

In typesetting Eq. (A3) on page 584, two contour integral symbols were inadvertently omitted. The correct equation is

$$\begin{aligned}
 W &= \int_{bottom}^{top} g \left(\frac{T_u - T_d}{T_a} \right) dz \\
 &\approx - \int_{up} RT_u d \ln p + \int_{down} RT_d d \ln p \\
 &\approx - \oint RT d \ln p \\
 &\approx \oint p d\alpha \\
 &\approx \text{TCAPE},
 \end{aligned}
 \tag{A3}$$
