Interleukin-1 Synergy with Phosphoinositide Pathway Agonists for Induction of Interleukin-2 Gene Expression: Molecular Basis of Costimulation

THOMAS J. NOVAK, DAN CHEN, AND ELLEN V. ROTHENBERG

Division of Biology, California Institute of Technology, Pasadena, California 91125

Volume 10, no. 12, p. 6333: The following sentences were inadvertently omitted from the Acknowledgments. All oligonucleotides were synthesized by the California Institute of Technology Biopolymer Synthesis Resource Center under the direction of Suzanna Horvath. This facility was supported in part by funds from the Lucille P. Markey Charitable Trust and from U.S. Public Health Service National Cancer Institute Cancer Center Core Grant CA 32911.
