IN MEMORIAM
JONATHAN ROGAWSKI (1955–2011)

I do not ask to see the distant scene, one step enough for me.

John Henry Newman

Jonathan Rogawski is no more. In loving memory, his friends and collaborators and admirers have contributed to this garland of articles that you will find in the pages to follow. He was of course a gifted mathematician, one of the earliest workers on the Langlands Program, but much more. He wrote papers, textbooks, supervised students, and served for many years with great distinction as an editor for the *Pacific Journal of Mathematics*.

During the last 10 years or so of his life he had a fight with cancer which he faced with great equanimity, but which ended, as it so often does, in his passing away. He was a source of great inspiration to his friends. A few days before his death he was still conversing with friends, totally at peace with himself. To us, his life is epitomized by John Henry Newman's moving words from his hymn "Lead kindly light".
