Erratum: SU(3) predictions for nonleptonic B -meson decays
[Phys. Rev. D 39, 3346 (1989)]

Martin J. Savage and Mark B. Wise

Two errors have been brought to our attention by Dr. M. Wanninger. In Table V, the relative rate for the process $B^0 \rightarrow K^0 \bar{K}^0$ should be changed to $|2A_{(\bar{3})} + C_{(\bar{3})} - 3A_{(\bar{15})} - C_{(\bar{15})} + A_{(6)}|^2$, and in Table VI, the relative rate for $B_s^0 \rightarrow \eta\eta$ should be changed to $2|\hat{A}'_{(\bar{3})} + \frac{2}{3}\hat{C}'_{(\bar{3})}|^2$.
